Big-capacity International 881 forage harvester is top of the line.

NEW CASE IH 881 CHOPPER
2 Row Corn Head
List - \$18,975

Buy Now For Under **\$12,000!**

Tackles big acreage forage crops, or takes on custom work with profit-making performance and capacity.

If you want the most in crop chopping capacity, step up to the International 881 forage harvester. This heavy duty machine all but guarantees to keep extra men and wagons working with no time consuming waits. And with the increased capacity of the three-row crop unit, you'll finish your chopping jobs in record time. The smooth running, high capacity, 881 harvester is rugged, ideal for large-

- Crop units include**
- 72 and 90-inch windrow pickup units
 - 2 and 3-row crop units
 - Ear corn snapper unit
 - Ear corn hopper attachment

Besides the obvious advantages of multiple interchangeable crop units, the 881 basic machine has a whole host of convenient, time-saving features.

Remote electric controls give easy, fingertip control of major functions right from the tractor seat. Rotate spout, change deflection angle, start and stop feed rolls at the touch of a button. Ideal for cab equipped tractors.

Four big feed rolls feed material to the cutter-head in a positive manner. Spring-loaded upper rolls compress

acre private operations or high capacity custom services. And it's designed for 140 to 190 hp tractors with 1000 RPM PTO. In addition to its sturdy construction and high capacity, the 881 is a versatile machine, able to handle all your forage crops with ease. You'll like the way it can be set up to bring in any type of forage crop with maximum efficiency.

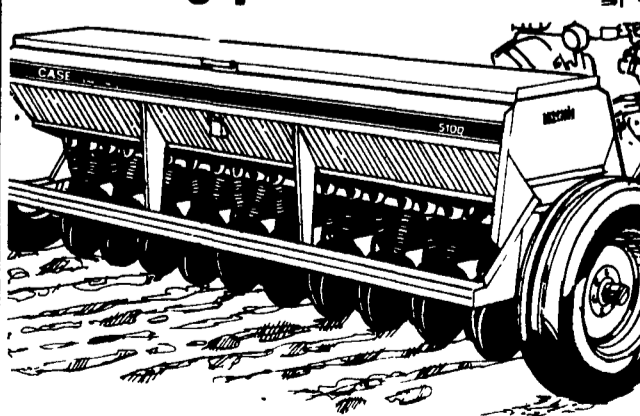

material and adjust automatically to varying amounts of incoming material.

High helix, 12-knife cutterhead has big tonnage capacity while allowing fast ground speeds. Produces fine chop in 3/16 or 5/16 inch lengths.

Equal angle hitch positions hitch point equi-distant between the tractor PTO and implement powershaft knuckle. This permits sharp turns without sacrificing performance, and there's less chatter and vibration. That means longer powerline life.

Compare the 881 with other forage harvesters and see the difference. Check the quality of its chopping performance, its easy operation and its simple service requirements. They all add up to extra value for more profitable management of your forage crops.

A Good Selection In Stock Better than ever seeding performance
