THE VICON SYSTEM. MAKE IT WORK FOR YOU.

Sometimes it seems we spend half our lives fighting the system. But there's one system that's always on your side—the Vicon Haying System.

With a Vicon KM Mower/Conditioner, one of our high capacity V-Rakes, and a new Vicon

round baler, you can make hay faster, better and more economically.

The KM321, for instance, is the fastest mower/conditioner in the world. It's 30 percent faster than conventional mower/conditioners. A new drive unit lets you operate non-stop. Take square corners without drive line vibration or danger of failure.

And even if you have a heavy, dew-wet crop, the KM 321 won't plug, and won't leave you worrying about leaf loss.

If you're making big round bales,

the next step is a Vicon V-Rake. Eight- or ten-wheel models provide a working width of up to 22 ft. Rake quickly and cleanly on the first pass. Pick up more hay with less dirt and trash. And the fingerwheels are ground driven to eliminate wearing parts. No gears. No belts. No PTO shafts.

Finally, try one of Vicon's new round balers. The easiest starting round balers in the world. They give you a tighter, heavier, more consistent bale. Time after time. The secret is Vicon's revolutionary design combining a full-width floating pick-up with a wide-open throat. The result—more bales per hour and lower operating costs. For more information on Vicon Haying Systems, or the name of your closest Vicon dealer, just call or write. We think you'll see that when you can't beat the system, there's only one thing left to do.

anyway) in the summer to sleep in a cooler spot. Usually, Rhett tracks him down and curls up on the sleeping bag next to the snoozer.

But, the night before the cat's "swim," the kid for some unexplained reason had chosen to sleep in his own bed. We can only hilariously project the results of one soggy, smelly cat curling up next to the face of one sleeping teenager.

True. Home is where they have to take you in when you get there.

But they might make you take a bath before they'll let you inside.

Especially if you take to chasing birds across just-stirred manure pits.
