AUTOMATIC BALERS

John Deere round balers make baling almost automatic for any operator

The John Deere 430 and 530 Round Balers' automatic design begins with the exclusive Bale-Trak® monitor. It's your electronic guide to making bales that are uniform in shape and size every time

A fast pickup speed means a more productive working speed. Diamond-tread forming belts start the hay turning immediately for fast bale starts.

When the bale reaches the preset size, the twine arm is automatically activated. The end result is top-quality, uniform bales that are easy to handle. Stop by for a look at the automatic 430 and 530 Balers

IN STOCK FOR IMMEDIATE DELIVERY
Models 530, 430 And The New 330

MORE THAN "THE BASICS"

- John Deere's forage equipment offers exclusive features that improve performance.
- John Deere forage boxes use wagon gear that exceeds ASEA standards for load ratings.
