

Plastic SILO LINERS

For Silos
with or without unloaders
Because of the volume of liners being sold, we cannot guarantee delivery on last minute orders at silo filling time. We are offering discounts for early orders, so we know which sizes to make in advance.

SELF-FEEDING BIG AG-BAG PLUS!

You can feed directly from an Ag Bag and save hours of labor every day! You will also be feeding a more palatable feed as high in nutrition as the day you bagged it.

AG-BAG Feed Storage Bags Are Time Tested And Proven!

WHY GAMBLE YOUR CROP ON ANYTHING ELSE?

Custom Bagging

- The white outer layer reflects the heat of the sun and the ultra violet rays that are the enemy of all plastics
- The black inner layers are designed to assure no ultra violet or oxygen penetration and offers double protection for your valuable crops and feeds

BOTH 8 FT. & 9 FT. BAG SIZES AVAILABLE

"A lot of farmers in our area ran out of feed, but we didn't."

Our eighty five cow dairy butterfat went to 700 which is good because we had a tough time in getting it to 625 before the bagging states Jim. The palatability of the feed is a big plus and the higher quality feed has made a difference in the herd health. We are now at a 12.5 calving interval which is important to us as our herd is completely artificial inseminated. Both our veterinarian and nutritionist agree that the higher nutrition makes the difference.

Another big plus is that you can select the feeds you want like haylage, corn silage or wheatlage out of each bag and feed accordingly to your high group or your low group of cows. It's a real management tool.

AG-BAG

INSIST ON THE AG-BAG

**JR-700 BAGGER
COMPACT
BUT TOUGH!**

The JR 700 Bagger features an independent hydraulic system and positive compaction control. Transports easily to bag feed where you want it and in unlimited capacity.
