SELF-FEEDING BIG AG-BAG PLUS!

You can feed directly from an Ag Bag and save hours of labor every day! You will also be feeding a more palatable feed as high in nutrition as the day you bagged it.

AG-BAG Feed Storage Bags Are Time Tested And Proven!

WHY GAMBLE YOUR CROP ON ANYTHING ELSE?

"A lot of farmers in our area ran out of feed, but we didn't."

their eighty five cow dairy Our butterfat went to 700 which is good because we had a tough time in getting it to 625 before the bagging states Jim The palatability of the feed is a big plus and the higher quality feed has made a difference in the herd health We are now at a 125 calving interval which is important to us as our herd is completely artificial ly inseminated Both our veterinarian and nutrition ist agree that the higher nutrition makes the difference

Custom Bagging

- The white outer layer reflects the heat of the sun and the ultra violet rays that are the enemy of all plastics
- The black inner layers are designed to assure no ultra violet or oxygen penetration and offers double protection for your valuable crops and feeds

Another big plus is that you can select the feeds you want like haylage corn silage or wheatlage out of each bag and feed accordingly to your high group or your low group of cows it's a real management tool

BOTH 8 FT. & 9 FT. BAG SIZES AVAILABLE

AG-BAG

INSIST ON THE AG-BAG

JR-700 BAGGER COMPACT BUT TOUGH!
