self-unloading boxes

We Are Your GEHL Dealer, With Top-Of-The-Line FORAGE BOXES In Stock

THE HIGHEST QUALITY AT THE BEST PRICE

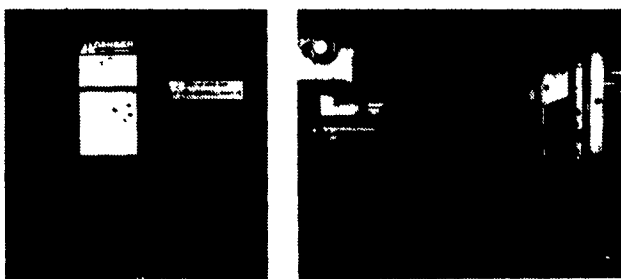

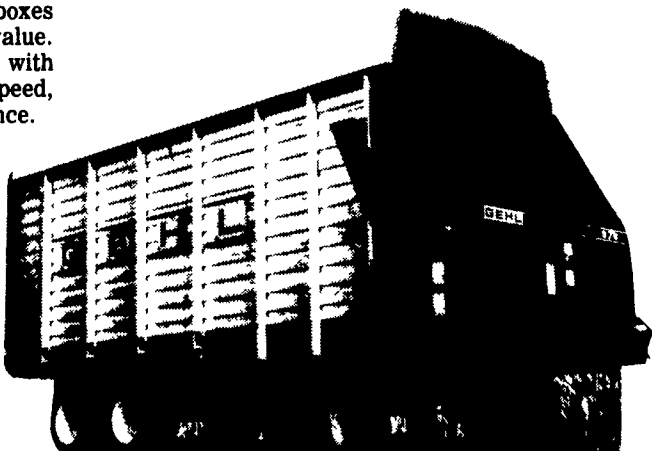

The Gehl tradition of building the best forage boxes is well known. Gehl forage boxes traditionally maintain a high resale value. The Model 970 continues the tradition with added features that increase unloading speed, capacity, strength and ease of maintenance.

The first thing you'll notice about the 970 is the steel sides. They're made from 20 gauge GEHLSTEEL. GEHLSTEEL is superior to hot-dipped galvanized, Galvalume™, electrolytic galvanized and aluminized steels.

It has far better corrosion resistance and a longer life expectancy. Even if scratched, there is little chance that rust will appear.

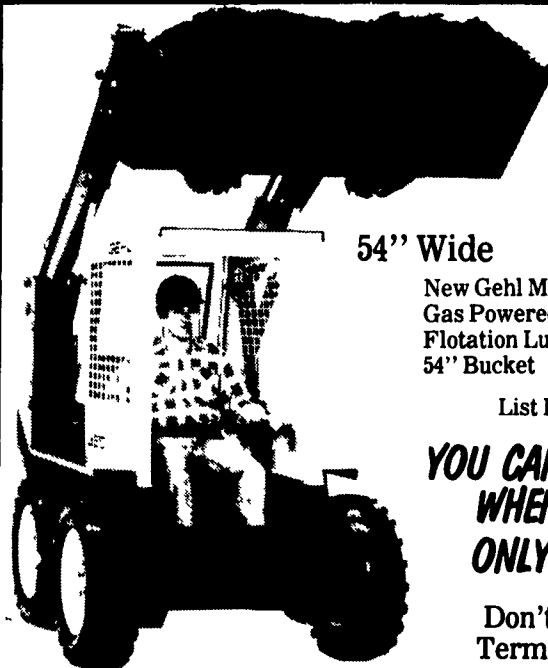

Available in 14-, 16- and 18-foot lengths, the 970 is backed by a 10-year warranty on the sides, endgate, stakes and platform.

Study the Model 970 and see all the features that make it the best performing forage box on the market. Then study the new low price. You'll agree that the Gehl 970 is the best forage box value available today.

All new drive system. The two-speed drive system features #50 roller chain for added strength and durability. The apron chain speed is easily controlled by the handy lever located on the front of the box.

10-Year Warranty
On sides, endgate, stakes, platform and roof
