 7 & 5 1/2 Ft. Hay Pick Up Attach.

SQUARER BALES

John Deere's baler line builds squarer, stackable bales

To build solid, square-cornered bales consistently, you need consistent control of the hay. And John Deere's 327, 337 and 347 Balers give that control from the moment hay touches the pickup.

A floating tapered auger and adjustable feeder forks take over to keep material flowing evenly. The gear-driven knottor puts the finishing touch on these solid, stackable bales from John Deere.

New 327 Balers In Stock For Immediate Delivery—Special Price

EASY ADJUSTMENTS

John Deere 1219 Mo/Co features simple adjustments for easy servicing

Different hay crops have varying conditioning requirements. That's why John Deere's 1219 Mower/Conditioner gives you the option of changing roll spacing and pressure in just a few minutes.

When crop conditions call for it simply change the roll spacing to as wide or as narrow as you want. When more or less pressure is needed just turn the adjusting bolt.

New 1219 In Stock
