

White's 'Field Boss' Tractors Available This Month

SOUTH BEND, Ind. — Robert L. Terry, President of White Farm Equipment Company, Chicago, Illinois, recently announced that the Company's new "Field Boss" compact tractors will be in dealer showrooms through the United States and Canada beginning October 15.

"These new products", Terry said, "have been under rigorous performance tests by White Farm Equipment engineers and have demonstrated both design quality and performance excellence. We are proud to offer them to our

dealers and customers."

"The first of the new tractors can be seen at Stoltzfus Farm Service of Cochranville, Pennsylvania by mid-October", said John T. Peterson, White Farm director of marketing services. "The various compact models offer the exclusive White Farm "King Pin" 4-wheel drive allowing an extremely short turning radius and "Triple Sync", a fully synchronized transmission on the "Field Boss" 31, 37, and 43 models which affords on-the-go shifting

without coming to a stop or breaking", Peterson said.

White Farm will also be offering

14 different implement attachments for use on the farm in lawn preparation and maintenance

work, all of which have been specifically designed for the under 40 HP market.

White Field Boss Tractors are available in 2- and 4-wheel-drive, in sizes from a 16 hp diesel lawn tractor to 43 hp all-purpose models.

Wool And Mohair Prices Announced

WASHINGTON — Support prices for wool and mohair for 1986 marketings are \$1.78 per pound for shorn wool and \$4.93 for mohair, a U.S. Department of Agriculture official announced recently.

In 1985 the support prices were \$1.65 for wool and \$4.43 for mohair.

Milton E. Hertz acting administrator of USDA's Agriculture Stabilization and Conservation Service said pulled wool will continue to be supported at a level comparable to the support price for shorn wool through payments on unshorn lambs.

Shorn wool payments will be based on a percentage of each producer's return from sales. The percentage will be that required to raise the national average price received by all producers for shorn

wool in 1986 up to the support price of \$1.78 per pound, Hertz said. In 1986 shorn wool prices are expected to average around \$.70 per pound compared to about \$.63 per pound in 1985.

Mohair payments will be calculated in a manner similar to wool. Hertz said projected prices indicate payments may be necessary for 1986 marketings. Mohair prices during 1986 are expected to average around \$3.50 per pound compared to \$3.45 in 1985.

Mohair is being supported at 85 percent of the percent of parity at which shorn wool is supported, which is the statutory minimum price.

Further details will be published in the Federal Register in the near future.

WANTED BUYERS - SELLERS

Do you have to sell your farm, business, equipment or other prized items? Are you interested in purchasing a farm, business, equipment, yacht, plane or other? If so, **INFO 86** may be the answer to your effort. **INFO 86** can now place you in a position whereby you may possibly save or gain not only hundreds but thousands of dollars on your next sale or purchase of farms, businesses, equipment, yachts, planes or other items.
