200 SERIES DISKS

Up To 145 Lbs. Per Blade:
 Disk Residue In The Fall, Or Make Seedbeds In The Spring... You Get High Performance Disking At A Low Disk Price

The 200 Series disks are our most versatile. You can work in one season to disk down stalks, and work in another to incorporate chemicals and make level seedbeds. This kind of versatility helps save you money.

There's also another money-saving feature you shouldn't overlook. It's called price. The 215 Standard Disks are our "economy" models (although they're equipped much like deluxe models). You get all the features you need to do the job right, and at a price that you'll like.

MODEL 215 DISK, 11'5" w/ CUSHION GANG AND EXTRAS 30% OFF

Use The 940 S-Tine Field Cultivator To Shatter Hard Clods And Prepare A Level Seedbed In Low-Residue Fields

The 940 lets you cover big areas fast with operating speeds up to 8 mph. Heavy-duty S-tine shanks penetrate the soil with constant vibrating action. Soil loosens and hard clods explode.
