PLEASURES SHOWN
BELOW** ↓

- 1...Rugged, dependable performance.
- 2...Excellent penetration in tough conditions.
- 3...Level job every time.
- 4...Higher resale value when it's time to trade or sell.
- 5...More timely planting.
- 6...More time with the wife.

1. "SUPERSEAL" BEARINGS
Engineered to assure positive greasing directly into the cartridge. The triple lip seals keep grease in, dirt and moisture out.

5. OVERLAPPING FRONT DISC GANGS

A unique Krause design for smoother, more uniform field finish. It eliminates the center strip of untilled ground left by conventional tandem discs.

2. FRAMES
Engineered of super strength steel tubing with cross braces and gussets at major stress points.

6. "ROCKFLEX" BEARING ARMS
Krause invented the "Rock-Flex" arm in 1965. This unique C-shaped arm flexes over obstacles. It helps protect disc blades and spools from breakage. "SuperSeal" bearing is completely encased in rubber to absorb shock.

3. WHEEL HUBS
Krause Made - Precision machined and regreasable. Every hub passes rigid inspection to assure proper tolerances.

7. WING HINGES
Krause uses big 1 3/4" diameter bolts on heavy duty units (1 1/2" on medium duty) with over 10" of wear surface area.

4. TIE RODS AND SPOOLS
Alloy steel tie rods are 1 1/4" in diameter on heavy duty units (1 1/2" on medium duty) - (30% to 70% stronger than many other brands.) There's a nut on both ends for easy servicing. Krause spools are ductile iron, and weigh 20-to-30-lbs. each.

8. ROCKER SHAFTS
A full 6" in diameter with big steel tube wheel arms for maximum carrying capacity. Compare ours to other makes!
