3 SILOS AND UNLOADERS

THE ANSWER TO LOW-LABOR MULTIPLE FEEDING WAS RIGHT UNDER OUR NOSES ALL THE TIME... AND IT ISN'T COMPUTERIZED!
It took a dairyman to invent such a perfect feeder.

We call this exciting new Starline® feeder, "Grain Brain"™ because it "thinks for itself" Here's how it works. When you do your regular feeding, you also fill your "Grain Brain"™ multifeeders. Grain Brain™ does the rest. At the time you have preset into Grain Brain™ the multifeeders drop feed for each cow's next feeding. That means you go from two or three time to four or six time per day feeding with no extra labor!

A Grain Brain™ that will handle a 50-cow herd will cost you approximately \$3,000, complete. Grain Brain™ is simple, easy to operate, reliable and capable of paying for itself in less than a year. We're anxious to tell you the whole story, so see your Starline dealer soon. By the way, "Grain Brain"™ was invented by a Minnesota dairyman for his own barn. Now a lot of his neighbors have one, too. Patent Pending

Building dependable equipment since 1881
