

DISCOVER THE DAWN OF TOMORROW

DK 524

Top Competitor

DK 524 may be new, but it already has a record that speaks for itself — this hybrid won or finished in the top three places 95% of the time in FACT plots in which it appeared. Good emergence and fast, early growth make it a favorite for early planting and in soils with more surface residue. Its ears are covered with husks that open early for fast grain moisture drydown.

- Superior yields
- Excellent emergence and early growth
- Very good stalk strength
- Very good plant health
- Excellent dry down
- 100-day relative maturity

DK 572

Coming On Strong

This medium-short hybrid is sure to please you with its standability and yields of excellent test weight grain. Its deep kernels develop on a small cob. Plus, husks open early to give this 107-day relative maturity hybrid fast drydown.

- Strong yield potential
- Excellent stalk strength
- Good plant health
- Good grain quality

DK 636

A Vigorous Producer of Quality Grain

One of our most vigorous hybrids, DK 636 is gaining lots of attention. It develops quality with fast, early growth. DK 636 features excellent stalk strength and extremely healthy plants. Come harvest, this medium-tall hybrid shells out big yields of dry grain. Food corn millers like the high test weight and quality grain of this top-notch hybrid.

- Excellent yield for maturity
- Gives good response at high or low populations
- Excellent plant health
- Excellent drydown
- 113-day relative maturity
