

# TORQUE AMPLIFIERS, ETC.

Serving Customers Coast to Coast.

Complete TA assemblies for 706-1586 are priced at \$595 and come with a Dana Co Heavy Duty Sprag instead of the usual IH sprag. The Dana sprag is guaranteed for 2 years against failure. Sprag kits (includes sprag gear, Dana sprag, and piston carrier) and all items for rebuilding your own TA are available to qualified persons. Ramps and carriers for the older style TA's (as in SMTA, 340, 560) are priced at \$150 each and carry a 90 day guarantee. We have all the parts needed to rebuild your TA in stock at prices that will save you money. We also have a shop available for complete TA installation. Or, you may split your own tractor and bring the center housing to us, which we can rebuild while you wait (approx 4-6 hrs). We also stock New and Rebuilt Water Pumps, Dynlife Clutches, Pressure Plates, and PTO Drive Gears, (Spline-fit into pressure plates) for most IH tractors and combines.

We are in need of TA & clutch cores for rebuilding purposes. If you have not returned your cores, please do so or call us for pickup.  
Dealers: We are paying cash for cores. If you have quantity, we will pick up.

Box 250  
Willow Street, PA 17584  
717-464-2874

## FEEDER WAGONS

16', 21', 27' lengths available. A great feature for feeding cattle in meadows or in feed lots. Can be used for feeding round bales.

If old gas tanks are used for feeder wagon bottoms, they should be sand blasted. If not, the gas and rust may result in sick cattle or even death. Be safe and buy from us as ours are sand blasted before being painted.

## FIELD STAR Spring Tooth Harrow w/Hyd. Cart

### Features:

- Compact but strong frame made of heavy wall structural tubing.
- Hydraulic lift linkage is also strong, but compact.
- Hitch pole is extra strong 4" square heavy wall tube. Standard length is 9'5". Extra long, 11'5" pole is available for more turning clearance when used with dual wheel tractors.
- Wings are pulled with flexible, high strength aircraft cable for easier folding of wings.
- Sections have 2" square tooth bars, wide, heavy tooth clamp, 1/2" Grade 5 bolts to secure teeth, and have replacable high carbon skid shoes.

### Specifications:

- 15"x8 bolt wheels are standard.
- 11Lx15 tires are recommended, but not included. Optional tire package is available. See below.
- Hydraulic cylinder not included. 3 1/2"x8" is required.
- Maximum transport width is 13'6".
- Parking jack is standard equipment for easier hookups.
- Hinge pins are 1" Grade 5 bolts.
- 23" tooth bar spacing.
