- MODEL 358
125 Bushel

In a recent survey, grinder-mixer owners were asked to list the important factors they looked for when buying a grinder-mixer. "Durability" was the most important feature with "uniform mixing" a very close second. These same owners then rated the various brands of grinder-mixers against these factors. Guess what?

First in both!

New Holland was rated first in both categories. That won't surprise you after a quick inspection. You'll see tough, rugged construction — the type of construction that leads to years of dependable service. Inside you'll find a rugged hammermill and mixing auger for the kind of uniform mixing you'd expect from the industry leader.

NH 316 BALER

A Top Performer For Capacity & Bale Shape

Flow-Action® feeding systems provide high capacity and excellent bale shape. Feeder tines are mounted on a sturdy finger bar and engage the hay gently. These tines measure the right amount of hay and move it to the bale chamber. Reliable knotters go thousands of bales without a miss. They feature hard surfacing at important wear points and are easy to service and maintain.
