Vegetable Management Seminar Set

NEW HOLLAND - The Eastern Lancaster County Adult Farmer Program will conduct a Vegetable Management Seminar on Thursday evening, Dec. 18th, from 6:30 to 9 p.m. at the Blue Ball School. Penn State Extension Vegetable and Small Fruit Specialists Mike Orzalek, Pete Ferretti, Rob Amsterdam, and Roland Daniels will present slide illustrated sessions on vegetable and small fruit management topics.

Subjects to be presented will include varieties, cultural practices, fertilization, pest control, and marketing. Research on row covers on cole crops (broccoli and

cauliflower) will be presented.

Many local produce crops will be discussed, but emphasis will be on cantaloupes, tomatoes, peppers, cauliflower, broccoli, asparagus, strawberries, raspberries, blackberries, and blueberries.

The opportunity for vegetable growers to update Private Applicator Licenses that expired in September 1986 will be available. All interested persons are invited.

The Blue Ball School is located 1/2 mile east of Blue Ball on Ewell Rd., between routes 322 and 23. For further information call the Adult Farmer office at 354-4525.

Fire Destroys Pennfield Plant

EPHRATA - Fire swept through one of Lancaster County's largest egg processing plants Wednesday night, destroying the building along with tens of thousands of eggs.

Located near Ephrata, the facility was owned by Pennfield Farms, a division of Pennfield Corp., of Rohrerstown.

Smoke was already pouring from the roof when the Shoeneck Fire Company arrived on the scene. About 150 firefighters from 13 fire companies battled the blaze.

Thirty-five employees were at work in the 32,000-square-foot building when the fire broke out, but no employee injuries were reported. One fireman was treated for smoke inhalation at Ephrata Community Hospital and released.

A company spokesman said that Pennfield was gearing up for the busy holiday season when the fire struck. Between 36,000 and 45,000 dozen eggs were in the plant at the time of the fire.

As of yesterday, the cause of the fire had not been determined. Damage to the building and

processing equipment was estimated at \$2 million.

Faith And Farming

(Continued from Page A38)

talents together, and Mennonites have done this better than anyone else, got it all equipped to feed the world at a cheaper rate and no world to feed. There are plenty of people who need food. But there aren't many people you can get the food to for political reasons, for economic reasons, for social reasons, for reasons of national security. So you have the people who can import the food who are raising their own crop. You had overvalued and speculated land prices. I know this may be painful but there is no way in world that you can have Kansas farm prices, wheat land \$1,200 an acre, dry land prices and raise wheat on it, and that's all you raise on it. And raise it for what the world will pay for it today and come out.
