

We Keep Production Lines Going.

Besides hard work, it takes management skill and good instincts to run a farm. The right amount of sunshine and rain doesn't hurt, either.

Yet, by and large, a farm runs on money. And between harvests, money has a way of running short.

Farm Credit helps farmers meet operating expenses with production loans. For everything from seed, fertilizer and chemicals to labor costs and tractor tires. Production loans can also stock the fish pond and feed the feeder pigs.

And because livestock and crops don't grow to suit a payment schedule, we adjust yours according to your cash flow.

Unlike some other lenders, Farm Credit is owned and controlled by the farmers who use its services. Which means we're always here for farmers. Not just when it suits our profit needs.

So if you're in line for a production loan, the most productive thing you could do is call us.
