MULCH TILLER

Now you can take advantage of conservation tillage with as little as 60 horsepower

Stop in and take a look at John Deere's 710 Mulch Tiller—an economical conservation tillage tool that lets you fall-till in one pass with as little as 60 horsepower. You get a rugged 4x4-inch welded tubular-steel mainframe. Choice of straight-coulter or spherical-disk gangs. And rigid or optional spring-reset standards.

With 32 inches of underframe clearance, soil and trash flow through smoothly. Standard 3-inch concave twisted shovels (4-inch optional) bring ribbons of soil to the surface for aggressive tillage action.

Choose a 5-shank model, 6 feet 3 inches wide, or a 7-shank model, 8 feet 9 inches wide. Remember, John Deere's the leader in conservation tillage, and we have the equipment to meet your needs.
