

# Here are 5 reasons to use LORSBAN 15G for rootworm control.

(Only one of which is rootworms.)

#1. LORSBAN 15G granular insecticide steps the number one corn enemy — rootworms.

#2. LORSBAN 15G protects corn yields by controlling worms, too.

LORSBAN 15G is T-banded for safety, combining the protection of banded and in-furrow application.

#4. LORSBAN 15G is security against unexpected corn pests: billbugs, grubs, seed corn beetles, seed corn maggots and wireworms.

#5. LORSBAN 15G is easy to handle and apply.

There is only one insecticide that gives you Corn Security.

LORSBAN 15G you have unmatched control that protects your total corn investment. You can apply LORSBAN 15G granules in a T-band over the planter wheel and ahead of the closing wheel. It's a T-band, also of furrow and around the germinating seed and the root zone.

LORSBAN 15G carries a CAUTION label, and is not a Restricted Use Pesticide. It's easy to handle and apply. While you won't need a special applicator, you should become a Certified Insecticide Applicator.

Always use the minimum you charge. ALWAYS READ THE LABEL FIRST AND ALWAYS FOLLOW IT TO THE LETTER. ALWAYS USE ALL LABEL DIRECTIONS.
