## 710

## MULCH TILLER

Now you can take advantage  
of conservation tillage with  
as little as 60 horsepower

Stop in and take a look at John Deere's 710  
Mulch Tiller—an economical conservation  
tillage tool that lets you fall-till in one pass  
with as little as 60 horsepower. You get a rugged  
4x4-inch welded tubular-steel mainframe.  
Choice of straight-coulter or spherical-disk  
gangs. And rigid or optional spring-reset  
standards.

With 32 inches of underframe clearance, soil  
and trash flow through smoothly. Standard 3-  
inch concave twisted shovels (4-inch  
optional) bring ribbons of soil to the surface  
for aggressive tillage action.

Choose a 5-shank model, 6 feet 3 inches wide,  
or a 7-shank model, 8 feet 9 inches wide.  
Remember, John Deere's the leader in con-  
servation tillage, and we have the equipment  
to meet your needs.
