

Thirteen PA Congressmen Recognized

WASHINGTON, D.C. — Thirteen of Pennsylvania's twenty-five member delegation to the U.S. Senate and House of Representatives were presented with

"Certificates of Award" by Pennsylvania Farmers Union Executive Director Chester L. Reed. Reed and several other PFU members were in Washington,

D.C. early this month for the press conference held by Senator Tom Harkin and Congressman Richard Gephardt on their "Save the Family Farm Act."

family farms is essential during these times of economic stress in agriculture."

Union is a general farm organization representing family farmers throughout Pennsylvania.

nicely," she said. "We're trying to get a better name for the goat industry."

Glenda's future plans are a six-year enlistment with the U.S. Air Force. In July, she leaves for Lackland Air Force Base in Texas. She hopes to take advanced training in security.

This June, Glenda will pass on her title of Youth Representative at the Big Weekend Show of the

Pennsylvania Dairy Goat Association in Huntingdon, where over 200 exhibitors from Pennsylvania, Maryland, Delaware, New Jersey and Virginia meet for the state's largest goat show.

With the enthusiasm and ambitions that Glenda Hockenberry has shown as Youth Representative of the Pennsylvania Dairy Goat Association, it's a sure bet that the goat milk industry is developing a better name.

"The purpose of the certificates was to formally recognize those men who had voting records of 80% or better on issues of importance to family farmers that arose during the second session of the 99th Congress," Reed said.

"Voting records are kept when Farmers Union contracts Congress to explain our views on a particular issue," Reed explained.

The thirteen recipients were: Senator Arlen Specter; Rep. Thomas M. Foglietta, 1st District; Rep. William H. Gray, III, 2nd District; Rep. Robert Borski, 3rd District; Rep. Joseph P. Kolter, 4th District; Rep. Gus Yatron, 6th District; Rep. Bob Edgar, formerly of the 7th District; Rep. Paul E. Kanjorski, 11th District; Rep. John P. Murtha, 12th District; Rep. William J. Coyne, 14th District; Rep. Doug Walgren, 18th District; Rep. Joseph M. Gaydos, 20th District, and Rep. Austin J. Murphy, 22nd District.

The twelve issues used in compiling the voting records were reported in full in the October 17, 1966 edition of National Farmers Union's "Washington Newsletter" (vol. 33, #12). They ranged from changes in the 1965 Farm Bill to allow a 12-cent per hundredweight milk assessment instead of a 50-cent per hundredweight Gramm-Rudman support price drop, to the Omnibus Trade Bill which included limits on casein imports, to an attempt to end further trading in live cattle by December of 1967.

"We find it very significant that so many of these Congressmen are not from rural areas," Reed said, "Urban and suburban support of

New Staff Member Appointed To Albany Post

SYRACUSE, N.Y. — Brian Ward, executive vice president of the American Dairy Association and Dairy Council has announced the appointment of Nick Murphy to the ADADC's consumer promotion department.

As a dairy marketing specialist, Murphy will assist dairy managers from area supermarkets and convenience stores with dairy product advertising and promotion. He will also represent

the ADADC at trade shows, conventions, and training seminars throughout the Empire State.

A graduate of Hudson Valley Community College majoring in marketing, Murphy comes to the ADADC from Big "V" Shop Rite in Albany where he has worked for the past nine years.

Murphy resides in Colonie with his wife and two children. He will be based at the ADADC's Albany area office.

ASANA. BREAKING PERFORMANCE BARRIERS IN CUTWORM CONTROL.

Applied as a preventive treatment (PPI or PE) on corn fields having a history of cutworm problems. ASANA insecticide kills cutworms at a lower cost per acre than Lorsban 15G. Preventive treatments should also be considered for fields especially attractive to cutworm moths for egg-laying, such as bottomlands, wet, weedy and no-till fields. ASANA can be tank mixed with most herbicides for cost-saving, one pass weed-and-insect control. More active than Pounce[®] or Ambush[®]. ASANA allows lower use rates (1 gal. treats 63 acres for normal infestations). New tip-N[®] measure[®] containers help reduce waste.

Applied as a rescue treatment where cutworms are an occasional threat. ASANA saves money because you treat only if insects are a problem. Its staying power and washoff resistance give lasting control to save

costly resprays. And ASANA controls other corn pests, including armyworms and stalk borers, so it could be the only insect protection you need. ASANA is backed by a Performance Agreement that assures commercially acceptable control. Your participating dealer can tell you more.
