

Lean, mean pork chop machine.

New Pro:Lean Swine Feeds from Agway can add more lean meat faster. And with today's emphasis on lean meats, that can mean healthier profits for you.

Using regular swine feeds, you can expect a pig to reach 40 pounds by the end of two months. With Pro:Lean, you can expect 45. And during the crucial 4 months of growing and finishing, Pro:Lean adds lean meat fast.

With an additional .1 pound per day weight gained, your pigs reach finishing weight and go to market faster. Up to 10 days earlier than with most swine feeds. And leaner hogs can really help fatten your wallet.

Contact your local Agway store or farm enterprise salesperson for expert advice on your pork production operation, nutritional needs and technical service.

Finish leaner & faster with new Pro:Lean.
