## Whirlybird

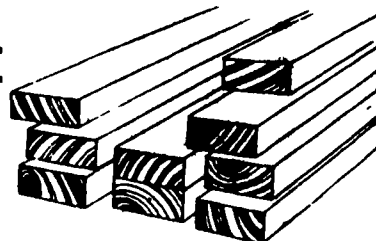

IS NOT JUST ANY TURBINE VENTILATOR!  
The Perma-Lube Ball Bearing System Makes The Difference!

There is a BIG difference between a Lomanco turbine ventilator and the many others on the market. What is it? THE BALL BEARING SYSTEM! The heart of the Lomanco turbine is a permanently lubricated ball bearing system that guarantees your turbine will turn for as long as you own your home, withing slowing down or dying on the roof. Ventilate your house with Lomanco turbine ventilators and get the BIG difference.
