

Here are 5 reasons why LORSBAN 15G is the FOOTWORTH CONTROL. (Only one of which is rootworms)

#1. LORSBAN 15G granular insecticide stops the number one corn enemy — rootworms.

#2. LORSBAN 15G protects corn yields by controlling

LORSBAN 15G is T-banded safely, combining the protection of band and in-furrow application.

#4. LORSBAN 15G is secret against unexpected corn pests: hillbugs, grubs, seed corn beetles, seed corn maggots and wireworms.

#5. LORSBAN 15G is easy to handle and apply.

There is only one insecticide that does it all — LORSBAN 15G.

LORSBAN 15G is a granular insecticide that can be applied in a number of ways.

It can be applied in a band, in a furrow, or broadcast.
