CHECK (✓) THE FOLLOWING STATEMENTS WHICH APPLY TO YOU

I WANT TO MAKE & SAVE MORE MONEY.

I WANT LESS SHRINK AND HIGHER TEST WEIGHTS.

I AM TIRED OF PAYING THE ELEVATOR TO STORE AND DRY MY CORN CROP.

I WANT THE FLEXIBILITY TO SELL MY CROP, WHEN I WANT...WITHOUT MOISTURE DOCKAGE.

(If you've checked one or more of these statements - read the following to find out how.)

The one product that will satisfy all of these desires, is the AeroDry Grain Management System.

AeroDry uses natural fan forced air, controlled by computer, to dry your corn. There's no high heat, only mother nature's way of lowering moisture levels.

AeroDry can save you up to 75% of energy drying costs. The natural moisture removal process provides less shrink and higher test weights. You don't "cook" the quality out of your crop.

AeroDry's computer controls moisture levels day and night without baby-sitting. You make the profit the elevator makes, by selling your crop when you want - without moisture dockage.

If you're serious about making more money on your corn crop... you'll call AeroDry before the fall rush. Farm proven from the midwest to the east coast - AeroDry is FARM TECHNOLOGY FOR FARM PROFIT.
