FUEL INJECTION & TURBOCHARGER SPECIALIST

Most people think that diesel fuel additives are only used in the winter months to solve winter-type problems.

The real benefit of FPPF Fuel Power is to solve the year 'round problems that only a unique product like Fuel Power can solve:

- * Totally disperses water to protect the fuel injection system
- * Prevents the growth of algae
- * Decarbonizes the entire fuel injection system which gives greater power.

Available in 8 oz. bottles, 1 gallon cans, 5 gallon pails, and 55 gallon drums.

Auto Tune-Up Available — Call for Appointment

THE NUMBER ONE YEAR FOUND BEST SELLER

CHECK (✓) THE FOLLOWING STATEMENTS WHICH APPLY TO YOU

- _____ I WANT TO MAKE & SAVE MORE MONEY.
- _____ I WANT LESS SHRINK AND HIGHER TEST WEIGHTS.
- _____ I AM TIRED OF PAYING THE ELEVATOR TO STORE AND DRY MY CORN CROP.
- _____ I WANT THE FLEXIBILITY TO SELL MY CROP, WHEN I WANT... WITHOUT MOISTURE DOCKAGE.

(If you've checked one or more of these statements - read the following to find out how.)

The one product that will satisfy all of these desires, is the AeroDry Grain Management System.

AeroDry uses natural fan forced air, controlled by computer, to dry your corn. There's no high heat, only mother nature's way of lowering moisture levels.

AeroDry can save you up to 75% of energy drying costs. The natural moisture removal process provides less shrink and higher test weights. You don't "cook" the quality out of your crop.

AeroDry's computer controls moisture levels day and night without baby-sitting. You make the profit the elevator makes, by selling your crop when you want - without moisture dockage.

If you're serious about making more money on your corn crop... you'll call AeroDry before the fall rush. Farm proven from the midwest to the east coast - AeroDry is FARM TECHNOLOGY FOR FARM PROFIT.
