Penn State Sends Ag Time Capsule

UNIVERSITY PARK - A unique time capsule that represents today's research and provides for research in the year 2087 will be part of the 1987 Ag Progress Days, on August 18-20.

The College, of Agriculture Time Capsule celebrates the centennial of the Hatch Act, which established agricultural experiment stations in each state. Pennsylvania's experiment station, now part of the Office for Research in the College of Agriculture, was established as part of Penn State a few months after the Hatch Act was passed by Congress.

Penn State's College of Agriculture will dedicate the time capsule at the conclusion of Ag Progress Days, at Rock Springs outside State College, on August 20 at 2:30 p.m.

The glass-domed time capsule will feature items symbolizing research in the college, and samples of such things as acid rain which can be more thoroughly analyzed by scientists of the next century.

It will also include a \$100, 100-year certificate of deposit, donated by People's National Bank of Central Pennsylvania. In 100 years, the certificate of deposit will have an estimated value of \$86,000. That money will be designated for future agricultural research at Penn State.

People who are part of the agricultural community will also be part of the heritage the time capsule will provide. The time capsule will include photographs of families or their farms on in their agriculture-related businesses, along with written messages from these families to the agricultural community of the year 2087.

The time capsule, a glass dome that is 30 inches high, was donated by Corning Glass of New York. It will be filled with helium and sealed. After Ag Progress Days, it will be placed on display in the lobby of the Agricultural Administration Building on the Penn State campus.

At Ag Progress Days, the time capsule will be on display in the theme building along with the research items that will be placed inside. Visitors interested in contributing photographs should bring them to that building. The College of Agriculture will accept 100 photographs (no larger than 3 and 1/2 by 5 inches, no Polaroids) on

THE PENNSYLVANIA GRANGE EXCHANGE

A cooperative food buying service for grange members provided by Eastern Milk Producers, Dairy Products Div.

For more information on how you can save on food costs from this service, call the State Grange office at (717) 234-5001 or write to 1604 North Second Street, Harrisburg, Pa. 17102.

SCHEDULE OF DISTRIBUTION STOPS

Tuesday, August 11, 1987

- 800 am. Wrightstown, Pa.- Middletown, Grange Fairgrounds (off Rt 413)
- 9 30 a.m. Plumsteadville, Pa. - Plumestead Grange, Rt 611
- 12 00 NOON Trappe, Pa Keystone Grange, Main St., Rt. 422
- Devault, Pa Chester Valley Grange Rt. 29 200 pm 400 pm Unionville, Pa - East Lynn Grange
- Russellville, Pa. Grange Hall 530 pm.
- 700 pm. Wakefield, Pa. - Fulton Grange - 2 miles E of Rt 272

Wednesday, August 12, 1987

- 8.00 a m. Paradise, Pa. - Paradise Municipal Bldg. Rt. 741 E. of Strasburg
- 930 a.m. Elizabethtown, Pa - Elizabethtown Assembly of God
- Lebanon, Pa. Kimmerling Grange 990 Mt. Zion Rd., Lebanon 11.00 a.m. 12.30 p.m.
- Harpers Pa. East Hanover Twp. Bldg. old Rt 22, 1/2 mile past Rt. 934
- Pine Grove Exit 32 off Rt. 81, Maxines Restaurant 2 00 p.m.
- Bernville at the Grange Hall 4.00 pm.
- 600 pm. Kempton, Pa. - at the fire house

Thursday, August 13, 1987

- 8.00 am. Auburn, Pa. - Red Church by Kee-Dee Drive In, Rt 61
- Leesport, Pa. Ontelaunee Municipal Bldg, N of Leesport 930 a.m.
- 11 00 am Fleetwood, Pa. - Grange off Rt 222 100 pm. Kutztown, Pa - Rt. 222, Kemp Street
- 300 pm Trexlertown, Pa - Grange, Rt 222
- 430 pm Barto, Pa. - Church by Howard Mosser Farm

Friday, August 14, 1987

800 am Schnecksville, Pa. - Grange 10 00 a m Moorestown, Pa. - N Star Grange, Rt 512

- 12 00 NOON Sciota, Pa. LeMars Fashion
- 12.30 pm Sciota, Pa. Seidof's Feed Store, Rt. 209
- Lehighton, Pa. Intersection of Rt 209 & 76 230 pm

each of the three days of Ag Progress Days, August 18, 19 and before noon on August 20. Cards will be provided for family members to write their messages and identify the people in the picture and its location. Families will receive formal invitations to the opening of the time capsule in the year 2087, to pass down through the generations.

The research-related items to be

included in the time capsule have not been identified yet. However, they will include samples of acid rain and of stream water now considered "pure." Researchers today have no way of knowing how acid rainfall was a century ago, because measurements at the time simply were not thorough or accurate enough. Researchers of the future would probably encounter the same problems,

since their technology will be far ahead of ours. Other samples could include preserved food or seeds.

Ag Progress Days is one of the largest outdoor showcases of university programs and agricultural technology in the East. It is held at the Rock Springs Agricultural Research Center, nine miles southwest of State College on Route 45, August 18-20 from 9 a.m. to 5 p.m. Admission and parking are free.

AeroDry can save you up to 75% of energy drying costs. The natural moisture removal process provides less shrink and higher test weights. You don't "cook" the quality out of your crop.

MILLER DIESEL INC. 6030 Jonestown Rd., Harrisburg, Pa. 17112 717-545-5931 - Interstate 81 Exit 26 FUEL INJECTION & TURBOCHARGER SPECIALIST

Most people think that diesel fuel additives are only used in the winter months to solve winter-type problems.

The real benefit of FPPF Fuel Power is to solve the year 'round problems that only a unique product like Fuel Power can solve:

- Totally disperses water to protect the fuel injection system
- * Prevents the growth of algae
- * Decarbonizes the entire fuel injection system. which gives greater power.

Available in 8 oz. bottles, 1 gallon cans, 5 gallon pails, and 55 gallon drums.

FPPF **FUEL POLLER Diesel** Fuel Treatment TOTALLY PERMISMATE erten er bente personen er 8 DZ. LEDB LITENS THE NUMBER ONE YEAR ROUND BEST SELLER

AeroDry's computer controls moisture levels day and night without baby-sitting. You make the profit the elevator makes, by selling your crop when you want - without moisture dockage.

If you're serious about making more money on your corn crop... you'll call AeroDry before the fall rush. Farm proven from the midwest to the east coast - AeroDry is FARM TECHNOLOGY FOR FARM PROFIT.
