# Corn That Stands Through The Fall

That corn crop you've labored over won't do you any good if the ears are lying on the ground at harvest time. But Funk's G-Hybrids will stand right through the harvest

And they'll not only stand, they'll produce record breaking yields. With varieties like G-4027, tops in its field in New York. Or G-4446, a record yielder in Pennsylvania. Or G-4626, a standout in southern PA and Delmarva areas

And each Funk's variety is backed by Hoffman research. We annually run

more than 50 test plots to ensure that only the best yielding varieties reach your fields.

When you're looking for outstanding yields this planting season, call your local Hoffman seed representative. Or call Hoffman Seeds direct. We'll deliver a corn crop that stands through the fall

## CUT HAY DRYING TIME

# RAPID CURE

If you use a pull-type mower-conditioner, you can help the sun do a quicker job of drying your alfalfa by applying chemical drying agents while you cut. We can install a Harvest Tec push-and-spray bar directly in front of the reel of your mower-conditioner. It's designed to apply an even chemical coating with precise accuracy. So you apply the drying agents directly on alfalfa stems—not on delicate leaves that can become excessively dry and shatter. Optional pumping systems and tanks are available from Harvest Tec to complete the system.

NEW HOLLAND HARVEST TEC

## Chemical Hay Conditioner

When sprayed on alfalfa hay during cutting, the RAPID CURE mixture penetrates the waxy cutin layer on the stems, increasing the rate of water evaporation from the hay.

INTRODUCTORY OFFER \$5.00 Per Acre

### RAPID CURE:

1. Reduces chance of rain damage
2. Improves the quality of hay
3. Gets hay off faster and allows more days for new hay crop to grow.

**RAPID CURE Doesn't Cost...It Pays!!!**

Both university and farm tests have proven RAPID CURE Chemical Hay Conditioner pays for itself. RAPID CURE will cost about \$5.50 per acre. Applied as directed, RAPID CURE will increase hay yield by 120 to 130 lbs. per acre. This increased yield pays the cost of RAPID CURE.

ABC GROFF, INC. has a quality line of RAPID CURE applicators in stock to fit your needs.
