

Harvest Time SPECIAL VALUES

ON THESE HARVESTING MACHINES

PUTS THE PRESSURE ON FOR FASTER DRYDOWN

**1219
Mower/
Conditioner**

- John Deere mower/conditioners put on more pressure-per-square-inch over more crumpling points. So you get better conditioning action for faster drydown.
- It's a matter of design. The conditioning rolls have a pattern of unique indented, recessed cleats for more crump-pressure edges. And crumpling is the whole story of hay conditioning.
- You can also vary the crumpling pressure and roll spacing according to the nature of the crop. These and other adjustments such as platform float and shoe height can be made in minutes.
- See about the John Deere line when the haying pressure is on.

Special Price On This One Demonstrator Unit, Used Only 30 Acres

Special Finance Waiver Until May 1, 1988 or Discount in Lieu of Waiver Available

LEADERSHIP YOU CAN COUNT ON
