**BIGGER AND BETTER.**

If the grain dryer you're considering can't handle it, forget it!

Combines, grain trucks and wagons have grown in capacity, and now, so has this portable grain dryer. The new GT (Tox-O-Wik) Model 780 features a holding capacity of 680 bushels, making it one of the biggest recirculating batch dryers in the industry.

It's also the best. New Micro-Pro™ computerized controls automatically watch over dryer functions. New specially-coated holding tank sheets give long-lasting corrosion protection inside and out. And the new 5-year/500-hour limited

warranty is the best in the industry.

Compare feature for feature, and you'll see that the tough new GT Model 780 is the best recirculating batch dryer that money can buy.

Dryers may look the same. But when you know how we put 'em together, it's easy to tell 'em apart.
