Patz Proven Performer

Patz hook-and-eye links have proven their value for 39 years. Patz links are forged out of special-formula steel to provide strength and durability. The Patz link design provides chain flexibility that takes sprocket, corners, and elevations smoothly for layout flexibility and minimum wear.

Choose the Model 400 (blue) link with more than 2 pounds of steel, or choose the heavier Model XH-400 (red) link for extremely long pulls.

Progression forging builds extra strength into hook-and-eye link contact points. Final heat treating increases hardness, strength and wear resistance. Patz links withstand corrosion for long chain life.

Ask about our 10-year warranty on links and flites.

Other brands can be adapted for Patz chain.
