

Thanks To Our Many Friends — Old And New — Who Stopped By During Ag Progress Days

Penn Jersey's second building crew is now in operation to erect your Harvestore® or Slurrystore® System in time for fall forage, grain or manure storage!

The results you may achieve with your Harvestore® System depend primarily upon your management skills and may vary from successful results achieved by others. Any application to a particular farming operation requires the advice of qualified experts and is subject to limitations of good management, weather and other conditions present at the individual location.

PENN JERSEY PRODUCTS, INC.
