THE FIELD**

**Durability
and high
capacity**

The Model 1900 self-propelled forage harvester is built for high-capacity chopping. The hungry 181-square-inch throat opening swallows a lot of material fast. And a 270-hp diesel engine powers the massive, 24 inch-diameter cutter-head. That's chopping power. Besides being powerful, the 1900 is rugged. Many of the parts used on the 1900 are the same as those used on our largest chopper—the Model 2100. So extra durability and longer life are built in. Stop in and let us show you the other features that make the Model 1900 a Whopper Chopper.
