

# What are you planning to do with that excellent last-cutting alfalfa?

If you've ever considered a Harvestore® System, this is an excellent time to act!

Penn Jersey can build your Harvestore System in time for last-cutting alfalfa and you can top it with fall's corn silage.

Best of all, you won't have a payment till spring of 1988!

*Call us for details!*

The results you may achieve with your Harvestore® System depend primarily upon your management skills and may vary from successful results achieved by others. Any application to a particular farming operation requires the advice of qualified experts and is subject to limitations of good management, weather and other conditions present at the individual location.
