A Cage isn't enough

It takes more than wire to make a cage system. More than anything else it takes a feeder.

Sure, other components are important, but mainly it's the feeder that makes the system. That's why Big Dutchman's Systems are equipped with a SPEED FEED chain feeder that feeds every bird the right amount at the right time, without waste.

When you compare poultry equipment remember that the real test of a cage system is its feeder. Big Dutchman is ready for the test.

Big Dutchman, where proven ideas are put into action.
