### CONCRETE WORK, INC.

243 Miller Road, Akron, PA 17501  
(717) 733-0353, 6:30 AM - 3:30 PM, (717) 859-2074, After 6:00 PM

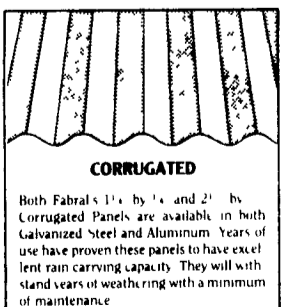

## Fabral Roofing and Siding Panels help you! Low Maintenance for Farm Buildings, Stables or Horse Barns.

The low maintenance, remarkable durability and pleasing appearance of Fabral panels make them extremely popular for use on farm buildings. When architecturally required, metal panels can be bent. Consult CRMC's engineering staff for exact recommendations. Translucent panels in profile's configuration can be used for skylights or sidewall light panels. The exceptional strength and tough baked on finish of these painted panels make them virtually maintenance free even when standing unprotected. The snug fitting sidelap provides a water-tight fit. The wide section between ribs provides superior rain carrying capacities. To complete your building, CRMC stocks a full line of color matched accessories and fasteners. Call or write today for information regarding your building project or any questions you may have. We are a company that is here to serve you.

GRANDRIB 3 GALVANIZED STEEL  
Grandrib 3 has a full 36" coverage with 1 1/2" deep ribs every 9". The ribs' depth and placement give it exceptional rain carrying capacity. Anti siphon side lap makes it virtually leak proof.

CORRUGATED  
Both Fabral's 1 1/2" by 1 1/2" and 2 1/2" by 1 1/2" Corrugated Panels are available in both Galvanized Steel and Aluminum. Years of use have proven these panels to have excellent rain carrying capacity. They will withstand years of weathering with a minimum of maintenance.
