

FLO-STAR™ claw

Bou-Matic®'s Flo-Star™ milking claw improves milk flow for:

- Better cow health
- Faster milk throughput, and
- Better milk quality.

Bou-Matic engineers designed the Flo-Star claw so milk flows smoothly and quickly out the bottom.

Less agitation equals less chance of milk "mist" carrying bacteria among teats. So the Flo-Star claw can mean less mastitis spread at milking.

Prove it to yourself by calling your Bou-Matic dealer for a free, on-farm demonstration.

Chore-Time's ULTRAFLO® feeder can free you from your chains

We have probably been too modest up to now about the merits of our new generation ULTRAFLO® cage feeder vs. the old style chain feeders some of our competitors are still trying to sell you. In fact, the only negative comments about our feeder come from our competition, not our customers. So we would like to point out the bare facts:

FEED SAVINGS On-farm results show a feed savings of 1 1/2 lb per 100 birds per day - over \$10,000 per year savings on a 100,000-bird house. Year after year.

TROUBLE-FREE DESIGN Our feeder has only two moving parts - the one-piece auger plus each drive wheel, their chain has more. Our corners are heavy 12 ga zinc plated tubing for long life, their corners have a reputation for trouble and short life.

PROVEN DESIGN Over 10 million birds are already on our feeder worldwide. Also it was proven in 5 years of on-farm testing before introduction.

EASY ADAPTABILITY Ours adapts easily to existing cage systems you may already have. Or choose from our wide selection of cage styles.

5-YEAR WARRANTY Ours gives you a 5-year warranty on auger and trough. Theirs doesn't. In fact, their dealers derive a large percentage of their income from parts sales. Ours don't.

MICROPROCESSOR CONTROL Our control lets you program feeding time to the second, to match the exact time of one circuit. Control number of feedings, time of each feeding - also 10-second "Stimulation Cycles" between feedings, to minimize separation, and improve your birds' feed intake.

SIMPLE OPERATION "Push-pull" Power Units with 1/2 or 1/2 HP motor are located in a cage, have hardened steel gears for trouble-free operation.

HI-GRADING OF FEED Our auger travels at 80 FPM so birds are limited from eating until it stops, birds will hi-grade feed from chain feeders, causing uneven nutrition.

REMIXING FEED Our auger slowly revolves, remixing old and new feed, theirs leaves most old feed to get stale.

BILLED-OUT FEED Our auger acts as a grid to prevent birds from raking, pling, and throwing out feed, neither chain or disk systems prevent feed waste.

COST SAVINGS Ours saves vast amounts of energy costs since it's easier to propel and runs only half as long as theirs.

LOW MAINTENANCE With our 5-year warranty on auger and 20 ga trough (one competitor has only 22 ga) - plus no corner wheel mechanisms to wear out - ours saves you maintenance costs.

Franklin

Corn Awards

BY BONNIE BRECHBILL
Franklin Co. Correspondent
KAUFFMAN STATION —
Seven Franklin County farmers received Pennsylvania Five-Acre Corn Club awards at the Franklin County Corn Clinic held here January 26. Dennis C. Brechbill, Chambersburg, received the county plaque for the three-acre-plus shelled corn class. Receiving the county plaque in the regular-sized ear corn class was Glenn Kuhns, Chambersburg.

Those receiving awards were: Dennis Brechbill, 137.9 bu., Pioneer 3352, 3 acres, shelled; Glenn Kuhns, 121.3 bu., Jacques 8210, regular size, ear.; Lester Wingert, 115.2 bu., Pioneer 3352, 3 acres, shelled; Donald E. Martin, 114.0 bu., DeKalb 656, reg. size, ear.; Rodney Stuff, 90.7 bu., Pioneer 3352, 3 acres, shelled; Benjamin Myers, 72.1 bu., Jacques 5820, reg. size, ear.; William Swailes, 68.4 bu., Pioneer 3184, reg. size, ear.

Madison
Seed Co.

YOUR NAME HERE!

Madison Seed invites you to compare a hybrid of the same maturity, planted on the same day, in the same field. A fair comparison will show you why we say,

"Your averages are better with Green Land Seed."

Results in competitive plots for the last 3 years show Green Land averages are superior, and is the fastest growing company in Ohio. The top yield for Pa. in 1987 was 182.5 bushels...only one company has the honor!

WE NEED DEALERS...
to sell these fine hybrids...excellent seed corn with superior standability!

WE OFFER:

- Competitive Prices
- Volume Discounts
- Early Pay Discounts
And More

Our program is set up to make money for both farmers and dealers.
