Solid Stake Sides

Omaha Standard's solid steel stake sides are designed for confined cargo or bulk hauling, and are ideal for landscapers, trash haulers and contractors. They fit both our Standard and Metro platforms and come in heights of 28", 40" and 52". These sides are available with the standard solid front or an optional steel bulkhead with full width mesh window.

The solid 2-section, Econo-door rear is "glove" fit to the platform and sides, and offers unobstructed access to the interior. The doors fold back flush with body sides for easy loading and unloading.

- (1) 18'Lx8'Wx6'9"
- (1) 16'Lx7 1/2'Wx6'9"

All Wrangler Models w/Electric Brakes

- **LIGHTWEIGHT** - Eby stock trailers are 25-35% lighter than comparable steel trailers. Less weight means better fuel mileage or increased payload.
- **MAINTENANCE** - Eby aluminum trailers won't rust. Welding and painting can cost you dollars in down time and repairs.
- **DURABILITY** - Eby trailers are built tough. Quality components and 6061 alloy aluminum provide the ruggedness required in a livestock trailer.

A versatile, lightweight, Eby aluminum stock trailer is built to provide years of maintenance free service. An Eby trailer is custom built to fit your individual hauling needs - No mass production! We use only quality components and strong alloy aluminum to manufacture what may be the last trailer you'll ever buy.
