# How To Make Decisions

Decisions! Decisions! Families are faced daily with decisions. Where will the family spend its next vacation? When will that old car be replaced? Should Johnny have a new trumpet or would that money be better spent on new screens or storm windows?

Individuals make decisions in different ways, explains Roxanne Tomczak, a University of Delaware senior majoring in individual and family studies. "Some people like to gather a great deal of information before making a decision. Others like to quickly choose the first possibility that seems reasonable to them. Some people rely on the experiences of their friends and neighbors while others prefer to review the results of carefully controlled consumer studies," she says.

Tomczak, who is serving an internship with Extension family and child development specialist Dr. Pat Nelson, has been studying decision making in families. "Since each person in the family is likely to view situations differently, depending on their style of decision making, this leaves many

opportunities for conflict and disagreement," she says.

"While it can be difficult to make decisions with other people, there are clear advantages to sharing the decision-making process. Studies have shown that some of the unhappiest people are those who make decisions on their own and carry all the responsibility for the family's financial well-being," she says.

The student intern says that researchers have found that families tend to develop their own decision-making styles. In some families, people make their own decisions without consulting anyone. In other families, decisions are based on what is best for the family as a whole, rather than what is best for specific individuals. A collaborative style — one in which all family members have a voice in what happens — is also used by many families.

In the collaborative style, Tomczak says, the final decision is usually made by the adults in the family who know most about the issue at hand, but the ideas of all interested members are considered.

# SPRING LUBRICANTS SALE

EFFECTIVE NOW THRU MAY 14, 1988

BP VANELLUS' C EXTRA 15W-40 motor oil is the result of the latest universal oil additive technology which provides the best potential for extended oil drain intervals with less wear and cleaner engines. Its multi-grade 15W-40 characteristics make possible all-season use plus lower fuel and oil consumption.

VANELLUS C EXTRA 15W-40 excels in API Service SF/CD and exceeds the lubrication requirements for all gasoline and diesel engines in car and truck fleets of all types, and in farm, earth moving, mining and construction equipment.

55 Gallon Drums ..... \$177.00  
 24 Quart Cans..... \$22.00

Vanellus MG 15W-40 is recommended for diesel and gasoline engines used in cars, trucks, farm and construction equipment. Meets API Service SF/CD

6/1 Gal. Jugs  
 55 Gallon Drums \$169.00  
 24/1 Qts..... \$21.00

BP VANELLUS' MCS-3 is a universal type motor oil for use in all gasoline and diesel engines used to power car and truck fleets of all types and in farm, earth moving, mining and construction equipment. It provides optimum engine protection for both heavy and light duty service. Vanellus MCS-3 excels in API Service SF/CD and is available in SAE 10W, 20W, 30, 40 and 50 single grades.

BP VANELLUS' SUPER DF provides superior lubrication protection for gasoline and diesel engines used to power construction, earth moving and farm equipment trucks and automobiles operating in light or medium duty service.
