- VERSATILE AND ADAPTABLE

THE Silawrap SYSTEM THE NEW ROUND BALE WRAPPER

An Economical Efficient Method Of Making Silage

This is the Silawrap system:

- The lift-arm places the bale on the turn table.
- Silawrap film is then attached to one of the bale strings
- As the turn table is rotating, the rollers will slowly turn the bale.
- The Silawrap film is stretched around the bale overlapping 2-3-4 or 5 times according to the setting of the gears.
- The film is cut, film end secured and bale tipped off.

NEW AND USED MACHINES AVAILABLE
