**Northeast Chicken Parts**

Wed., March 9, 1988  
Trading had slowed down and was light to occasionally fair. Cutlets were clearing satisfactorily and an increased number of sellers were having better success at 1.80, but others were still only getting 1.75. Breast availability has increased but has not reached a point where discounting was a factor. The demand for legs, and more so leg quarters, has lessened and supplies were generally adequate. Wings were tight and buyers paid the higher prices without hesitation.

**Make Hardy Brand® your hybrid.  
Make every kernel count.**

"Hardy corn is great! It does a great job of husking, and it's always nice and green, and it stands well. Our 300 acres are all Hardy. Why, some folks say, 'my gosh, I never saw corn like that!'"  
Tom McConahy  
Volant, PA

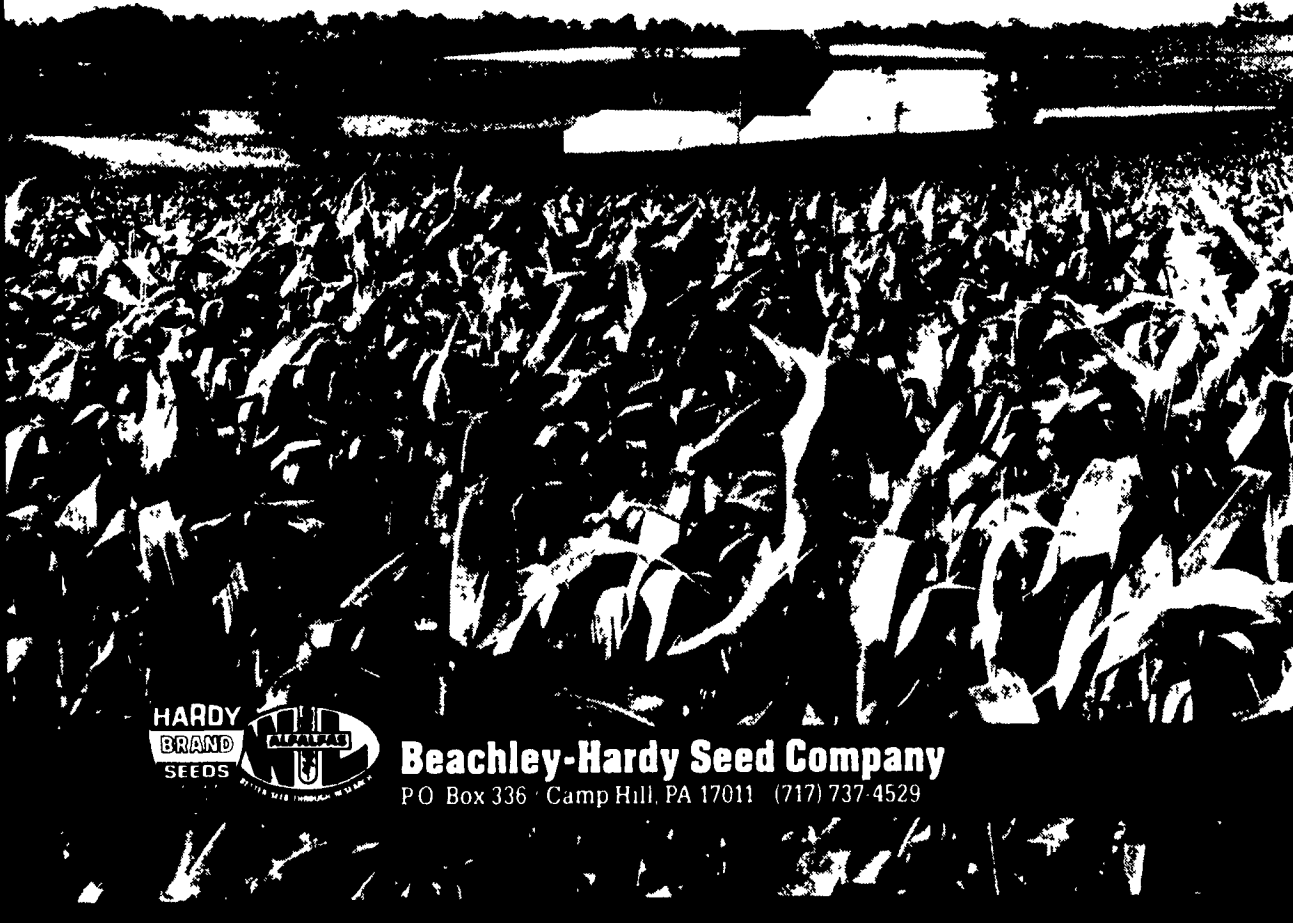

"Hardy comes out on top compared to the others. Hardy 760XS is a good shelling corn, yields terrific and stands great. The 370XS short season is a tall corn, and shells so easy, you can hardly hear it go through the combine."  
Dave Moore  
Boonsboro, MD

"I've been with Hardy for 10 years. We get a lot longer grain with Hardy 370XS, and it really shells great. And Hardy has a better stalk than most I've seen. It's great looking corn, why it really sells itself!"  
Roy Hoffman  
Richfield, PA
