

Atlantic Kempton Local To Meet

SOUTHAMPTON — The Kempton Local of Atlantic Dairy Cooperative District 1 will hold its annual dinner meeting March 22 at

7 p.m. at the Virginville Grange Hall.

Don M. Breiner, Atlantic's field and lab services manager, will be

the guest speaker. Breiner will report on cooperative business and milk quality issues.

We Can Improve Your Egg Shell Quality

Researchers have been telling us since 1892 that limestone — 38%+ calcium feed grade limestone — is necessary to maintain

optimal shell quality. Then, in the early '70's, researchers found that if the fine limestone was supplemented with a larger particle size calcium source, the shell quality of high speed layers could be maintained even better.

YORK CALCIUM CHIPS were developed in the late '70's as the dependable and economical source of calcium for the modern layer.

Since that time, continual comparisons by universities, research centers and egg producers have confirmed the benefits that poultrymen receive when they add **YORK CALCIUM CHIPS** to their laying rations.

For improved shells and lower feed costs, have your feed supplier add "**CHIPS**" to your formula.

Atlantic District Locals To Meet

SOUTHAMPTON — The Fulton County Local of Atlantic Dairy Cooperative District 21 will hold its annual dinner meeting March 18 at 7 p.m. at the McConnellsburg Fire Hall.

Daniel D. Plinski, Holly Milk Cooperative general manager, will be the guest speaker. Plinski will explain Holly's operation and how

the plant fits into Atlantic's overall marketing program.

R. Boyd Cromer, Fulton County Local president, will conduct the meeting. During this time, a 25-year membership award will be presented to Warren E. Swope of McConnellsburg.

Atlantic Dairy Cooperative represents 4,000 dairy farm families in Pennsylvania, New York, New Jersey, Delaware, Maryland, Virginia and West Virginia.
