

Quality & Price!

They keep on trying, but nobody's been able to match our Liquid, Dry & Suspension Fertilizer Coulters!

Fits most planters, including 3 point planters, for accurate, single-pass planting & fertilizing — or mount on toolbar for precision banding — narrow design allows better penetration with less soil disturbance.

Alfalfa's Triple Crown.

Emerald. Maxim. Funk's G-2852. These hardy alfalfas from Hoffman will place you in the winner's circle with improved yields, exceptional stand longevity, and broad-based disease protection.

Emerald is the yield leader from start-to-finish. It has consistently bested Hoffman trials, while producing 5 1/2 percent better than average yields in New York and Pennsylvania state trials.

Maxim is a sure bet for exceptional stand longevity. And its two-year production

average of 9.6 tons/acre will give you front-running yields.

Funk's G-2852 tops the field with some of the best disease resistance available. Backed by years of research, this newcomer has shown annual yield advantages of 1/2 ton/acre.

When you're looking for a winning alfalfa yield, call your local Hoffman seed representative. Or call Hoffman Seeds direct for more information about Alfalfa's Triple Crown.
