"Sure I'm Feeding YORK CALCIUM CHIPS

With egg prices where they are, I don't need cracked shells. CHIPS

help to provide calcium on a time-release basis - it's there in the early morning hours when the shells are being formed.

I'm also getting a better feed conversion. I don't know if it's the grit action of the CHIPS in the gizzard or that CHIPS separate the food particles so that the digestive juices work more efficiently. - I just know that CHIPS work."

YORK CALCIUM CHIPS - The choice of both the poultrymen and the birds.

Ask your feed dealer or ask us. We'll show you how YORK CALCIUM CHIPS can lower your feed costs.
