# You wouldn't sacrifice good milking to end cross-contamination.

## NEITHER WOULD WE!

Sure, cross-contamination is a problem. But you're not about to give up milking efficiency just to end it. We knew that. So when we set out to design a milker that would lower cross-contamination, we refused to compromise good milking procedures. Our stubbornness paid off. And the result is our new Surge Rx™ milker — a true four-chamber milker. With four separate chambers and four separate milk hoses that totally

isolate and transport each quarter's milk. Without sacrificing air flow, milk flow, vacuum stability, or visibility. Without sacrificing efficiency. Talk to your independent Surge dealer about a demonstration, right on your own dairy. In today's economy you can't afford to compromise. And now, thanks to our Rx, you don't have to.

Because we both know that good enough isn't enough.
