

# Congratulations to Hamilton Equipment, Inc. on Your 50th Anniversary

- - - G.H. GRIMM CO.

## **GRIMM** — best buy in hay tedders

This 8-foot, PTO-driven Super "C" from G.H. Grimm picks up all hay to three or four foot height and deposits in a loose, fluffy condition. A reel bar model, it greatly reduces leaf loss. Retention of alfalfa and clover leaves is important in producing more nutrient rich hay as 80% of the protein is in the leaves.
