NEW IDEA **Case**

HESSTON THE PRIME LINE

Tight, uniform bales from a maneuverable center-line baler!

Hesston Beeline Baler... Model 4600 (14" x 18")

The Model 4600 Beeline Baler uses Hesston's exclusive Center-line design to move crop straight through from pickup to finished bale. No cross augers or sweep arms that means less maintenance and high capacity baling.

Hesston's exclusive preformed flake system means better hay distribution throughout the bale. Bales break open evenly when feeding time comes and, because of the positive bale-length control, mechanical bale stacking is precise and easy.

Field and road position are one in the same so you save time opening fields and transporting.
