

Deere Spreader Reduces Maintenance, Increases Durability

MOLINE, IL — John Deere has introduced the 350 spreader with a 180-bushel capacity and several new features.

Maintenance is reduced by using a fiberglass-reinforced, plastic floor and special sides with a water-resistant, resin-impregnated coating. Floor and sides will clean easily and will not rust, rot, wear

off or break.

A 30 1/4 -inch diameter main beater, with tip speed up to 2,977 feet per minute and a bevel gear drive, improves the spread pattern. A primary v-belt drives the main beater and optional upper beater. The beater combs are 1/4 -inch, heat-treated, high-carbon steel. The upper beater is available for large

load spreading in hay fields or pastures.

The apron drive is hydraulic and controlled from the tractor. It features fewer mechanical parts and has six unloading speeds. The 67 t-rod apron chain has a 16,000-pound tensile strength.

Optional equipment includes galvanized steel extensions to

increase capacity, a hydraulic endgate for load containment and metering the discharge rate, and an endpan for spreading finer mater-

ial. A diverter valve, controlled from the tractor seat, is available to operate the hydraulic apron and endgate with one remote cylinder control valve.

GEHL

Harvest in half the time

A Gehl windrow merger on the front of your tractor combines two windrows into one to **cut haylage harvesting field time in half**. You get big fuel savings, improved uniformity of cut, more crop harvested at its nutritional peak, plus less wear and tear on your tractor and reduced soil compaction.

Gehl forage harvester advantages

Compare these unique Gehl features to the competition. You'll see why **Gehl forage harvesters are leading the way.**

■ **AutoMax load sensing system** lets you operate your harvester at maximum capacity without fear of downtime due to overloading.

■ **One-side cutterbar adjustment** is fast and easy—without reversing the cylinder. Plus Gehl's in head **hydraulic knife sharpener** sharpens the entire knife bevel—not just the tip.

■ **Overrunning clutch** protects your tractor pto when disengaging power to the forage harvester.

■ **Metal Stop metal detector**, totally Gehl designed for improved performance. Prevents harvester damage and hardware disease in your livestock.

■ **Choose from three high-capacity models** designed for today's wide range of tractor horsepower.

■ **Plus Gehl's forage boxes and blowers** speed crop delivery to save even more time at the silo.

Convenient Gehl Finance can provide additional savings. Ask your Gehl dealer about the low interest rates and payment options. Gehl Company, West Bend, Wisconsin 53095.
