

Grain Short?

Consider these alternative programs

1. Easy Care Block

is a 22% protein block formulated specifically as a feeding supplement for dry cows and heifers. Available in 50 and 500 lb. blocks

■ Weatherproof

Like its companion product, Easy Care Blocks stands up to all kinds of weather, so waste is minimal.

■ Highly Palatable - with Intake Limiters

Molasses-based for palatability but contains intake limiters to prevent over consumption when fed as recommended. Dry cows and heifers get what they need - no more, no less.

■ Balances Forages

Supplements forages to provide the balanced nutrition important to dry cows and heifers. Easy Care Block is formulated specifically to the nutrient requirements of dairy dry cows and heifers.

■ Self Fed

Saves both time and labor - especially on hard to reach temporary pastures.

■ Contains Vitamins-Minerals-Selenium and Magnesium

Meets Vitamin A and D Requirements when fed as recommended and supplies Selenium and Magnesium lacking in some forages.

■ 1 to 3 # per head per day consumption

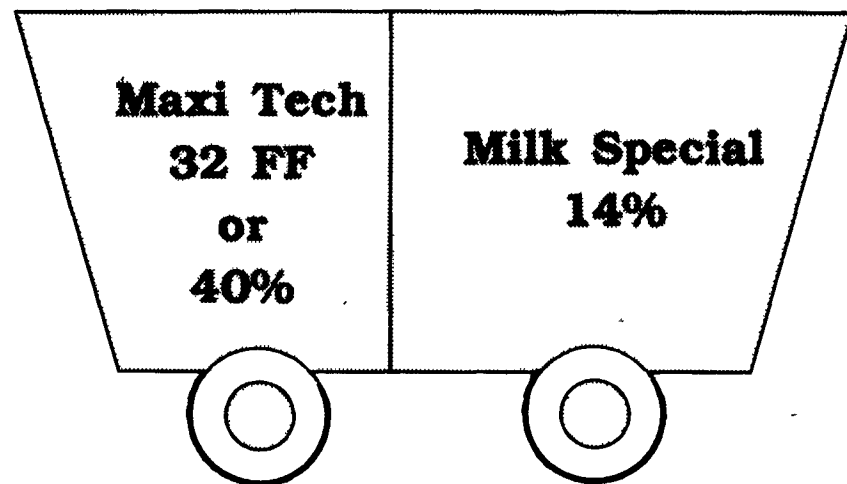

■ Full-Feed roughages

■ Can reduce or replace grain feeding to heifers and dry cows.

Note: Our Easy Care & Hi-Octane Milking Blocks HAVE NOT gone up dramatically in price & remain a good, convenient, feeding value.

2. Purina Complete Feeds and Grain Stretching Products With And Without NPN

For best feeding EFFICIENCY try a Purina Mills Complete Dairy Feed or Checkermix to meet the nutritional needs of your lower producing cows. Then topfeed a high-protein, performance concentrate to those cows above 50# milk per day.

With this "split-cart" program you won't over feed your lower producers while meeting the higher nutritional requirements of early-lactating, fresh cows.

Call Your Local Purina Dealer or Farm Consultant To Customize A Program For Your Herd.
