NEW B
SERIES -
COMING
SOON!**

**HOW TO
HANDLE SUCCESS.**

Just climb onto a Kubota and enjoy your view from the top-of-the-line compact tractor. With the new B-Series, we've reached what we think of as a turning point in tractor design. It's called the Bi-Speed Turn. Most simply, the front wheels take corners sixty percent faster than the rear wheels. Sharp turns are not only tighter than those of ordinary 4-wheel drive, they're smoother, less

damaging to turf, far less unsettling to the driver. But then, Kubota has been the innovation leader since we introduced the first compact tractors to feature liquid-cooled diesel engines, 4-wheel drive and hydrostatic transmissions. Service and support are ever present because, unlike many other tractors, every

Kubota is still made by Kubota. And you wouldn't want your success handled by just anyone.
