

Introducing The KIDD BIG BALE CHOPPER!

An affordable solution to bedding with big round bales!

- Low power requirement
- Either or both side delivery controlled from tractor seat
- Variable chop length
- Handles damp or frozen bales straw/corn stalks, etc.
- Handles square bales as well as round
- Throws 20-30 ft.
- Simple design
- Saves labor
- Saves bedding material

Save time and money with Henke's versatile Chipper/ Grinder.

The new Henke Chipper/Grinder cuts through any job easily. You can chip, shred or grind anything from up to 3 1/2" diameter tree limbs to bales of hay. The thru-cut control lets you vary speeds and the adjustable finger grates let you grind materials as coarse or fine as you like.

Multiple, year-round use makes the Chipper/Grinder a profitable investment for many operations.

Turf care and nursery use.
Reduce the volume of leaves by up to 90%. Chip a 14 ft. tree limb in seconds. You can even chop bales of hay and use the flexible hose to spread mulch.

Municipal and residential maintenance.

Shred newspapers, cardboard, pine cones, bark and brush or chip tree limbs for easy disposal.

At building sites.
Grind 2" x 4"s, shingles and other construction waste for easy disposal.

On the farm.
Chop hay, corn, stalks and cobs for feed preparation. Or shred and blow straw for livestock bedding.

Use the blower to spread mulch or livestock bedding

Use the blower's suction to get leaves and grass. Compact leaves from an average yard into a single trash bag

Gas engine model is ideal for independent operation. Lift out fuel tank makes filling safe and easy

Chop or grind virtually anything in seconds with the powerful Henke Chipper/Grinder. See your Henke dealer today for a complete demonstration

Henke Machine Inc.
Columbus, Nebraska

They keep on trying, but nobody's been able to match our Liquid, Dry & Suspension Fertilizer Coulters!

Fits most planters, including 3 point planters, for accurate, single-pass planting & fertilizing — or mount on toolbar for precision banding — narrow design allows better penetration with less soil disturbance
